## Everlast Astra Wood Saws - AGP - Alternate Top Bevel

Thank you for shopping with us!
Everlast offers an alternative to the Forrest Woodworker II™* Blade. Exceptional rip and crosscut.

Alternate Top Bevel - ATB - Each tooth has top bevel typically between 10 and 20 degrees. Two teeth are required to provide a full kerf cut. Provides low cutting pressures, which reduce material tearing during the cutting process and provides a fine cutting finish. Best performance crosscutting.

Rated: *Excellent and Very Good* in Fine Woodworking Magazine.

*Trademark Forrest Manufacturing Company

| Item # | Manufacturer | Diameter | Bore | Grind | Kerf | Plate | Teeth | Price |
|---|---|---|---|---|---|---|---|---|
