

# INTRODUCING - Solid Carbide Foam Cutting Bits

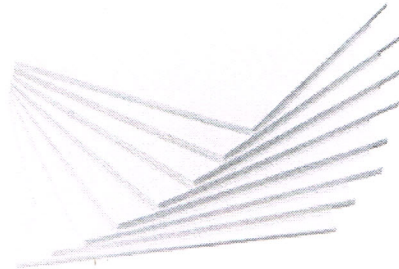

**NEW**

**Up-Cut 2 Flute**  
Foam Solid Carbide router bits for thick material with up-cut chip removal.

Specifically designed for milling Polyurethane Foam and Expanded Polystyrene (EPS) to ensure your foam projects are milled with accuracy and detail. Solid carbide industrial quality router bits provide deep cuts in thick materials in fewer passes, providing less assembly and increasing productivity.

D	B	d	L	Tool No.
1/8	1-1/8	1/4	2-1/2	46270
1/4	2-1/4	1/4	4	46272

Warning: Not for use in a hand-held router.
