### Amana Tool Ultra-Glide™ High Performance Ball Bearing Guide Assemblies

Edge of Arlington Thank you for shopping with us! Using the same quality standards as our regular steel bearings, these Ultra-Glide™ bearing assemblies feature satin-smooth Delrin® sleeves. Delrin® is an industrial synthetic plastic material similar to nylon, and will leave no marks on the material being cut. Applications include solid-surface materials such as Gibraltar®, Corian®, Surell®, Fountainhead®, Plexiglas® & other clear acrylics, and plastic laminates. Not recommended for regular wood applications due to a higher wear factor. Item numbers 47709, 47725, 47726, 47731, and 47733 include Teflon® dust shields. These bearings provide a better seal to increase bearing life while routing materials that generate very fine dust particles (such as solid surface). Outside dimensions are approximate and are given for reference purposes only.

Item #	Letter Size	No. of Pieces	Overall Length	Price
47707				<b>\$10.76</b>
47709				<b>\$19.39</b>
47727				<b>\$12.15</b>
47728				<b>\$12.49</b>
