Century Drill & Tool Industrial Wire Brushes

Thank you for shopping with us!

Century's Industrial Wire Brushes are made from high quality steel that is crimped, knotted, or twisted for heavy grinding applications.

Solid ring construction ensures our industrial wire brushes run smoother, longer, and with less vibration.

Excellent for removing heavy surface corrosion and weld splatter.

Industrial Wire Brushes are for angle grinders with 5/8 in to 11 threads. Adapters are available for other grinder arbors.
