Vega Phillips ACR® Insert Bits - 1/4"

Thank you for shopping with us!

Made from S2 modified shock resistant steel for professional performance and durability. Proprietary precision CNC machined tips for excellent fit in fastener recess. ACR ribs reduce stripping, increase torque, and enhance off-angle drivability. ACR: Anti-Camout Recess—there are ribs on the driver bit that engage the fastener recess to reduce stripping, provide increased torque, enhance off-angle drivability, and offer a stick fit that makes screw driving easier.

ACR® stands for Anti-Camout Recess. The ribs on the bit tip engage the fastener recess to reduce stripping, provide increased torque, enhance off-angle drivability, and offer a stick fit that makes screw driving easier.

Item #	Length	Tip/Point	Manufacturer	Unit Price	Pack Quantity	Price
