Vega Phillips Insert Bits - Stainless Steel - 1/4"

Thank you for shopping with us!

Made from S2 modified shock resistant steel for professional performance and durability. Proprietary precision CNC machined tips for excellent fit in fastener recess. Stainless Steel: Ideal for environments where corrosion and rust is severe. The high performance stainless steel used by Vega provides a superior mix of strength and corrosion resistance. It is recommended to use stainless steel bits with stainless steel fasteners to prevent contamination of stainless screw heads. • Multiple driver tip configurations available • Helps control contamination and corrosion • Excellent for use with stainless steel fasteners

Item #	Length	Tip/Point	Manufacturer	Unit Price	Pack Quantity	Price
