### Techniks PowerCOAT ER High-Speed Mini Nuts

Edge of Arlington offers free shipping in the United States when you choose flat rate shipping.

#### EOASAW 20% off SALE on Techniks PowerCOAT Nuts!

Use ER High-Speed mini nuts for applications where speed exceeds 10,000 RPMs. They are balanced to G2.5 for 20,000 RPMs. For collet holders and multi-spindle heads where center or shoulder distances are important.

- For minimum nose O.D. applications
- Increases holding power by 75%
- High speed nuts balanced to 20,000 RPM

PowerCOAT Nuts outperform bearing nuts!

- Rubber bearing seals on bearing nuts eventually fail, and then dust contaminates bearings to make them freeze up.
- Uncoated threads limit holding power.
- Bearing nuts cannot be balanced because they have moving parts so cutting tools wear prematurely.

CNC Routers run better with PowerCOAT!

PowerCOAT nuts greatly reduce friction between the nut, collet shoulder, and tool holder threads to increase down-force on the collet, collapsing tighter around the tool shank. This improves holding power and runout (T.I.R.). Better T.I.R. means cutting is faster and smoother, and tool life is also improved.

Item #	Specs-Misc	Thread Size/Length	List Price	Price
33108	ER8 high speed mini nut	M10x0.75	\$79.00	<b>\$79.00</b>
33111	ER11 high speed mini nut	M13x0.75	\$76.00	<b>\$76.00</b>
33120	ER20 high speed mini nut	M24x1.0	\$76.00	<b>\$76.00</b>
33125	ER25 high speed mini nut	M30x1.0	\$82.00	<b>\$82.00</b>
33125-L	ER25 high speed left hand mini nut	M30x1.0	\$102.00	<b>\$102.00</b>
