### Techniks PowerCOAT Ultra High-Speed ER Nuts

Edge of Arlington offers free shipping in the United States when you choose flat rate shipping. **EOASAW 20% off SALE on Techniks PowerCOAT Nuts!** PowerCOAT nuts greatly reduce friction between the nut, collet shoulder, and tool holder threads to increase down-force on the collet, collapsing tighter around the tool shank. This improves holding power and runout (T.I.R.). Better T.I.R. means cutting is faster and smoother, and tool life is also improved. -40% more holding power than bearing nuts. -Better rigidity and T.I.R. (runout). -Balanced to 25,000 RPM PowerCOAT Nuts outperform bearing nuts! ❌ -Rubber bearing seals on bearing nuts eventually fail, and then dust contaminates bearings to make them freeze up. -Uncoated threads limit holding power. -Bearing nuts cannot be balanced because they have moving parts so cutting tools wear prematurely. ❌ CNC Routers run better with PowerCOAT! ❌

Item #	Diameter	B1	Cut Height, Length, or Width	Flute	Overall Length	Shank	Specs-Misc	Thread Size/Length	List Price	Price
46120							ER20 high speed slot nut Max Speed 60,000	M25x1.5	\$72.00	<b>\$72.00</b>
