Amana Tool 82° Countersink Carbide-Tipped w/Adjustable Low Friction Depth-Stop

Edge of Arlington offers free shipping in the United States when you choose flat rate shipping.

Quick release 1/4" Hex Shank, 2-wing with HSS M2 slow spiral [fully ground drill DIN 1897](#).

Low friction polymer collar. No surface scratches or burn marks!

These tools combine carbide countersink, high speed steel drill bit, and free-spinning low friction depth-stop. The countersink leaves a clean hole edge and the adjustable depth-stop doesn't mar the surface. The large openings around the collar allow the chips to clear effectively and eliminate clogging.

Excellent for Drilling: Natural Woods, Man-Made Boards, MDF, Chipboard, Plywood, Aluminum/Non-Ferrous, Aluminum Composite Material (ACM), Composites, Composite Decking Materials.

Replacement NF1/4 x 1/4 set screw #67070 for tightening depth stop.

Replacement NF1/4-28 x 3/16 set screw #67083 for drill tightening.

Replacement 1/8 x 5/32 double-sided hex key #5019 (included).

Warning: When drilling aluminum/non-ferrous materials, for optimal results and extended tool life use lubricant or air cooling. Make sure the material is fixed and drill is stable during drilling.

Item #	Diameter	Cut Height, Length, or Width	Diameter (D1)	Manufacturer	Overall Length	Screw Size	Shank	Angle	Price
55294	3/8 in	9 mm	1/8 in	Amana Tool	2 3/8 in	6	1/4 in	49 °	\$32.70
