Freud Industrial Carbide-Tipped Brad Point Boring Bits

Thank you for shopping with us!
Drills all composition materials, solid surface materials, plywood, hardwoods, and softwoods on automatic or manual multi-spindle boring machines. Freud's industrial carbide-tipped brad point boring bits are designed for multiple spindle machines. Boring bits are supplied with a 10mm shank with an adjustable top screw making them compatible with most boring machines. Drills all composition materials, solid surface materials, plywood, hardwoods, and softwoods on automatic or manual multi-spindle boring machines. Industrial carbide tips. Designed for superior performance and maximum life. Freud's Limited Lifetime Guarantee. Ideal For: Designed for multiple spindle machines.

Item #	Diameter	Manufacturer	Holes	Overall Length	Includes	Rotation	Shank	Price
BP30057R	3mm	Freud Tools	Max Hole Depth 27	57.5 mm	10mm shank w/adjustable top screw for compatibility w/most boring machines	Right	10 mm	**$22.14**
BP30057L	3mm	Freud Tools	Max Hole Depth 27	57.5 mm	10mm shank w/adjustable top screw for compatibility w/most boring machines	Left	10 mm	**$22.14**
