Vortex Tool 77mm Length - Carbide-Tipped Brad Point Drills

Edge of Arlington offers free shipping in the United States when you choose flat rate shipping. Brad point dowel drills are used for drilling blind holes in solid wood, wood composites, or plastic laminated materials. Brad point drills will provide a clean entrance cut, but may cause some blow-out on the backside of the material on thru cuts. These bits have a 10mm shank and are designed to run in your drill blank, but can also be used in your CNC spindle.

Item #	Diameter	Length	Rotation	Manufacturer	Price
105067	5 mm	77 mm	Right	Vortex Tool	\$16.18
105068	5 mm	77 mm	Left	Vortex Tool	\$16.18
