Global Tooling Spiral Insert Knife Surfacing Heads

Thank you for shopping with us! Titan Spiral insert knife cutterheads make constant contact with the surface of the material in a helical pattern offering reduced cutting noise typically 20 decibels less. Each long wearing carbide knife has four edges that can be dulled before replacement. These moulder cutter heads improve material finishes on wood cross grain, lower long term tooling cost, and eliminate sharpening costs. Our molder spiral heads offer special radius edge inserts set at a shear angle to reduce any chance of knife corners marking your material. Made from 7071-T6 high strength aircraft aluminum and hard anodized making the cutterhead both strong and light. Heads include a set of carbide knives installed and ready to run. Heads also include a torx wrench for turning and replacing the knives. Titan Spiral Heads use 15 x 15 x 2.5 - 8 radius insert knives.

Item #	Manufacturer	Cut Height, Length, or Width	Knives	Outside Diameter	Bore	Includes	Туре	Length	Width	Thread Size/Length	Edge(s)	Bevel	Price
MS10042	Global Tooling	2 in CL	6	100 mm	1 1/4 in	Set of Knives & Torx Wrench	Non-Shear Type						\$454.62
