Amana Tool Classical Cove & Bead Carbide-Tipped 2-Flute w/Ball Bearing Guide

Thank you for shopping with us! The positions of the bead and the cove are reversed on this series of bits, with the bead coming off the bearing. With the optional 3/8" pilot bearing, the bit produces a fillet at the base of the bead. Largest diameter bits should be run at reduced speed. Use in handheld or table-mounted router. Standard 1/2" bearing #47706 (included); Optional 3/8" bearing #47702
