Amana Tool Flute & Bead Set Carbide-Tipped 2-Flute

Thank you for shopping with us! With this pair of bits, cut joints for staved assemblies, such as circular planters, canoes, kayaks, and hot tubs. One bit flutes an edge and the other forms the mating bead. Use in CNC or table-mounted routers. Will cut plywood, hardwood, softwood, and composition materials. For the best and accurate match, we recommend using a table-mounted router. Set of 2 bits—not sold separately.
