Amana Tool Bowl & Sink Trim 2-Flute w/Ultra Glide™ Ball Bearing Guide

Thank you for shopping with us!

Trim a sink cutout in stages flush with the bowl using these "overhang" and flush trim bits, in tandem. The overhang bits are equipped with non-marring Ultra-Glide™ bearings that are tapered to match the slope of the bowl's side. At first pass, with the appropriate overhang bit, it cleans the cutout edge to leave a very slight overhang at the underside of the counter. A pass with the flush trim bit completes the operation. Replacement Ultra-Glide™ Bearing Assemblies: (Includes #5003 5/32" hex key) 47726: 57153 47709: 57154 47733: 57155
