Amana Tool 2-Piece Stile & Rail Sets 2-Wing w/Ball Bearing Guide, 3/4" - 1" Material

Thank you for shopping with us! In addition to the components provided with sets of the first type, these sets include two trim cutters for stock 7/8" through 1" thick. (These trim cutters can be removed for making bearing-guided cuts on stock under 7/8" thick.) Use in a table-mounted router. Guide straight cuts with the fence, setting it tangent to the trim cutters. Use the pilot bearing only for cuts on curved rails or stiles. For cuts on curved parts 7/8" to 1" thick, a template must be used. [Individual components listing](#)
