Amana Tool 2-Piece Stile & Rail Sets 2-Wing w/Ball Bearing Guide, 3/4" Material

Thank you for shopping with us! Our stile & rail sets give you two complete bits: one for doing the rail cuts and one for the stiles. Make cabinet doors and all varieties of frame-and-panel assemblies for furniture and architectural applications. These sets are offered in two configurations—one for working material up to 1" thick and the other for material between 5/8" and 7/8" thick. The same three profiles are available in either configuration. **3/4" Material** Bits in this set have profile and groove or rabbet cutters and ball bearing guide mounted on a 1/2" shank. Respacing of the components should only be necessary—using the provided shims—after the cutters have been resharpened. Use in a table-mounted router. Guide straight cuts with the fence; use the pilot bearing only for cuts on curved rails or stiles.

Item #	Manufacturer	Diameter	B1	Cut Height, Length, or Width	Material	Overall Length	Radius	Shank	Type	Wings	Price
