Amana Tool 3-Flute High Production Shear, 3° Upshear

Thank you for shopping with us!

In choosing a straight bit for any application, always select one with the shortest cutting edges and the shortest overall length that will reach the required cut depth. Excessive length intensifies deflection and vibration, which degrades cut quality and leads to tool breakage.

Excellent for working composition board and melamine, this bit cuts with an upward shearing action to prevent chipping and tearing of the bottom of veneer or coated material. Designed primarily for production applications where the router is below the work.

Item #	Manufacturer	Diameter	Cut Height, Length, or Width	Flute Geometry	Flute	Overall Length	Shank	Price
45414-3US	Amana Tool	3/8 in	1 in	Upcut	3	2 3/4 in	1/2 in	\$37.65
45422-3US	Amana Tool	1/2 in	1 1/2 in	Upcut	3	3 1/8 in	1/2 in	\$38.18
