### Amana Tool High Production Straight Plunge Carbide-Tipped Router Bits: Single Flute

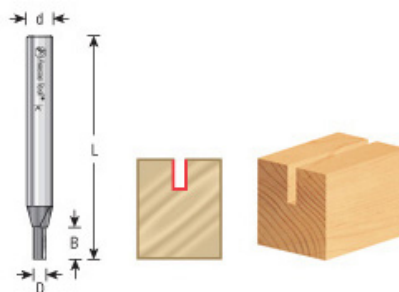

Thank you for shopping with us!

In choosing a straight bit for any application, always select one with the shortest cutting edges and the shortest overall length that will reach the required cut depth. Excessive length intensifies deflection and vibration, which degrades cut quality and leads to tool breakage.

A single-flute bit should be used where cut speed is more important than cut finish. Making one cut per revolution is faster than making two or three. Improved chip clearance is possible with a single flute configuration. The result: fast cuts.

### Amax Extended Life Router Bits:

- Extra strong carbide lasts 200% longer
- New generation of high wear outstanding carbide
- Superior geometric design provides super clean cuts
- Cost effective

Item #	Manufacturer	Diameter	Cut Height, Length, or Width	Flute	Note	Overall Length	Shank Type	Price
--------	--------------	----------	------------------------------	-------	------	----------------	------------	-------

45100	Amana Tool	1/8 in	7/16 in	1	--	2 in	1/4 in	Straight Plunge	<b>\$17.06</b>
45102	Amana Tool	3/16 in	7/16 in	1	--	2 in	1/4 in	Straight Plunge	<b>\$17.14</b>
