Amana Tool High Production Straight Plunge Single & 2-Flute Solid Carbide

Thank you for shopping with us! In choosing a straight bit for any application, always select one with the shortest cutting edges and the shortest overall length that will reach the required cut depth. Excessive length intensifies deflection and vibration, which degrades cut quality and leads to tool breakage. For high volume, high speed cutting in dense natural woods and abrasive wood composites, use solid carbide bits. Solid carbide dissipates heat more uniformly, extending tool life. Single flute bits cut faster, with better chip clearance. Two-flute bits cut more slowly, but leave a smooth finish.

Item #	Manufacturer	Diameter	Cut Height, Length, or Width	Flute	Overall Length	RPM	Shank	Price
43700	Amana Tool	1/8 in	7/16 in	1	2 in	Warning: Maximum RPM=28,000	1/4 in	\$31.76
