Amana Tool Timberline Spoilboard, Surfacing, Rabbeting, Flycutter, Surface Planer, and Flattening

Thank you for shopping with us!

Solid carbide spoilboard plunging, surfacing, planing, flycutting & slab leveler. **Perfect for:** Resurfacing spoilboards using CNC Planing large glued up panels using CNC Surfacing and finishing wood using timber slab machines Also suitable for router sled machines—make sure that your router sled is fully stable and squared Rabbeting or slotting **Designed for planing & chamfering the following materials:** MDF Fiberboard HDF/LDF High Density Urethane (HDU Board) Balsa Core Solid wood/Softwood Plywood/Chipboard Plastic/Acrylic Ultra-High-Molecular-Weight Polyethylene (UHMWPE) Each Timberline® router bit utilizes only the finest steel and micro-grain carbide; the CNC multi-axis sharpening technology creates a shear angle and radial relief on every form bit. Timberline router bits feature the latest in anti-kickback design technology; this important feature limits the cutting depth, which ensures that our bits are safer for your use.
