Freud Premier Adjustable Rail & Stile Bit Sets

Thank you for shopping with us!

Application: Produces perfect fitting rail and stile doors from 5/8" to 1 1/4" stock - see informational video below - Create extended tenons for extra door joint strength (patented solution). - Adjust groove width to suit different panel thicknesses for rattle-free plywood panels or solid wood raised panels. - Choose from a variety of material thicknesses (5/8" to 1 1/4"). - Add an optional cutter to your bits to create double-sided profiles in thicker stock material. - Produce flawless raised panel doors when you combine these bits with one of Freud's Raised Panel Bits. Shims are included to ensure a perfect fit. - Cuts all composition materials, plywoods, hardwoods, and softwoods. - Use on table-mounted portable routers.
