Freud Recoverable Bead Glass Door Bit Sets

Thank you for shopping with us!

Application: Creates glass doors that look equally good from the front and the back

-Each bit produces a unique profile on the front of the door and a matching profile on the back that can be removed with a 1/8" kerf saw blade (10" Freud [LM72](#) or [LM74](#) blade series recommended), then miter cut to make a bead to secure the glass panel. -99-281 produces an ogee profile; 99-280 produces a quarter round profile; 99-283 produces a beaded profile.

-Cuts all composition materials, plywoods, hardwoods, and softwoods.

-Use on table-mounted portable routers.

For bearing replacement, use specialty sleeve bearing item #[62-121](#)
