Freud Variable Corner Round Bit

Edge of Arlington offers free shipping in the United States when you choose flat rate shipping

Application: Rounding two edges in one pass

- The Freud variable corner round bit saves you time by rounding both edges on a board in one pass, rather than using standard rounding over bits that require two passes. Works with stock from 7/16" to 1 1/4" thick.
- Cuts all composition materials, plywoods, hardwoods, and softwoods.
- Use on hand-held and table-mounted portable routers.
