Mastercut Tool 2 Flute O Flute Downcut Slow Spiral (Hard Plastics & Aluminum)

Edge of Arlington offers free shipping in the United States when you choose flat rate shipping Material Finish-Top: Excellent Material Finish-Bottom: Poor Downcut routers produce the best finish to the top of the material. Chips flow in a downward direction. Spiral flute router bits should only be used in automatic feed operations. They're good for use on all materials. 2 flute routers work well with harder materials, providing an excellent finish to the material. Endmill Points are most often found on 3 and 4 flute routers. They're good for achieving a smooth finish on a flat bottom surface, and are commonly used in the plastic routing industry.

Item #	Diameter	Cut Height, Length, or Width	End Pt Type	Flute Geometry	Flute	Helix Angle	Overall Length	Shank	Manufacturer	Price
