Mastercut Tool 3 Flute Downcut Spiral Hogger (High Impact)

Edge of Arlington offers free shipping in the United States when you choose flat rate shipping. Material Finish-Top: Good Material Finish-Bottom: Poor. Spiral flute router bits should only be used in automatic feed operations. They're good for use on all materials. Downcut routers produce the best finish to the top of the material. Chips flow in a downward direction. Endmill Points are most often found on 3 and 4 flute routers. They're good for achieving a smooth finish on a flat bottom surface, and are commonly used in the plastic routing industry.
