Mastercut Tool 4 Flute Compression

Edge of Arlington offers free shipping in the United States when you choose flat rate shipping. Material Finish-Top: Excellent Material Finish-Bottom: Excellent. Compression routers are best used when both top and bottom finish are important. They're best used with material that has laminate on both the top and bottom. Chips flow in a sideways direction. Endmill Points are most often found on 3 and 4 flute routers. They're good for achieving a smooth finish on a flat bottom surface, and are commonly used in the plastic routing industry.
