Whiteside Machine Classical Round Bottom Router Bits

Thank you for shopping with us! Small Grooving Bits such as the Whiteside Machine Classical Round Bottom are commonly used for decorative designs in cabinet doors or for detail veining in furniture. Round Nose Bits and V-Groove Bits are often used in the same manner. The larger Grooving Bits are great for a raised panel effect in doors and for adding a bold accent to furniture or large work pieces. These bits also make nice edge profiles with the aid of a router table and fence. Profile Sample -

Item #	Manufacturer	Carbide H, or Cut H/L/W	Large Diameter	Overall Length	Radius	Shank	Material	RPM	Price
3725	Whiteside Machine	1/2 in	3/4 in	2 in	1/8 in	1/4 in	Natural woods, composites, hard plastics	14,000-16,000	\$38.08
