Amana A.G.E. Series Heavy Duty Miter / Double Miter Saw Blades: 4&1 Grind

Thank you for shopping with us!

Cut gap-free miters, every time. These blades are designed especially for glass-smooth compound miter cuts in moldings and picture frame stock for use in a miter box and single/double miter machines. This style blade is the perfect choice for picture frame and millwork shops. Unlike thinner miter blades, which have a tendency to flex and warp, throwing off the miter joint, our blades are stiffer and provide clean burr-free cuts in wood. Special grind, minimal run-out, and tight side clearances all combine to yield perfect "gap-free" miters every time! **Warning:** Not recommended for cutting non-
