Amana A.G.E. Series Thin Kerf Double-Sided Melamine Saw Blades: H-ATB Grind

Thank you for shopping with us!

Smooth, clean cuts in double-sided melamine.

Designed for chip-free cuts in double-sided melamine and veneered sheet goods on saws without a scoring unit. The H-ATB tooth geometry slices cleanly through fragile coatings and laminates. The high bevel will not "violate" the bottom laminate upon exiting the cut, which causes "blow-out." Thin kerf blades reduce waste in expensive materials and require less horsepower to operate. Extra hard sub-micrograin carbide tips for long life.

Warning: Not recommended for cutting non-ferrous alloys.

H-ATB GRIND
HIGH OR ACUTE ANGLE ALTERNATE
TOP BEVEL

MELAMINE SINGLE &
DOUBLE SIDED

Item #	Manufacturer	Bore	Diameter	Grind	Kerf	Note	Plate	RPM	Teeth	Hook Angle	Price
