Amana A.G.E. Series Thin Kerf Sliding Compound Miter & Radial Arm Saw Blades

Thank you for shopping with us!

Designed for sliding compound miter saws. These blades are specially designed for sliding compound miter saws, providing an exceptional finish. The -3° or -5° negative hook angle provides an extra margin of safety by pushing the stock downward and toward the fence. Thin kerf blades reduce waste in expensive materials and require less horsepower to operate. Warning: Not recommended for cutting non-ferrous alloys.

MD8-606TB	Amana Tool	8.5 in	5/8 in	4 ATB + 1 MFT	-5 deg	0.087 in	5/8 in arbor with diamond knockout.	0.055 in 60	\$76.11
