Amana Tool Hollow Ground 10° Positive Hook

Thank you for shopping with us!

The specially designed saw blade makes exceptionally smooth cuts in melamine and other coated boards, without the need for scoring. The unique hollow grind, which pairs a triple-chip tooth with a raker tooth that's ground to a concave profile, produces crisp clean cuts. The positive hook angle is particularly suitable for use on horizontal sliding table saws, such as those made by Striebig®, Altendorf®, SCM, and Holz-Her®. **Note: P.H. denotes pin-hole configuration, if applicable. Example: 2/10/60 = 2 @ 10mm dia on 60mm circle.** Warning: Before use, read saw

Melamine Single & Double Sided

blade safety guidelines in **Amana's catalog.**
