Amana Tool Ripping Standard Saw Blades

Thank you for shopping with us! This blade is the classic ripper for both hardwood and softwood. It features the flat-top grind for cutting with the grain efficiently, ample gullets for fast chip-clearance, expansion slots, and turbulence-reducing copper plugs. Available in 18° and 20° hook configurations. The blade with the 20° hook angle features a thicker plate and cuts a wider kerf. Use in single and gang-rip saws. **Warning:** Before use, read saw blade safety guidelines in [Amana's catalog](#).
