Diablo AMPED™ Steel Demon™ Reciprocating Saw Blades for Fire & Rescue

Thank you for shopping with us! Diablo's AMPED™ Steel Demon™ Fire & Rescue reciprocating saw blades are "AMPing Up" auto dismantling and extrication with the introduction of the industry's first ever industrial grade coating, Black Industrial Cooling Element (I.C.E.). The ultra-slick Black I.C.E. coating protects the cutting edge against wear for extreme durability and longer blade life. First responders demand a blade that will "finish the cut." Diablo answers that call by combining Black I.C.E. and a specially formulated TiCo Hi-Density carbide, delivering up to 100X longer cutting life than standard bi-metal blades and up to 2X cutting performance than standard metal cutting carbide reciprocating blades. A thicker blade body with a tapered nose design ensures first responders have the durability and stability required to quickly plunge into hard-to-reach areas when time is of the essence. Industry's first carbide teeth with Black I.C.E. coating reciprocating blade designed specifically for auto dismantling and vehicle extrication. -Up to 100X longer life compared to standard bi-metal blades. -Up to 2X cutting performance of standard metal cutting carbide blades. -TiCo Hi-Density carbide teeth delivers the greatest durability and cutting performance in auto dismantling and extrication applications. -Black I.C.E. coating protects cutting edge against wear for extreme durability and longer blade life. -Thicker blade body design for improved durability and blade stability. -Tapered nose design easily plunges into vehicles and fits in hard-to-reach areas. --Enhanced carbide tip to blade connection for extreme impact resistance. -Perma-SHIELD® coating resists heat build-up by protecting the blade against gumming and corrosion. -Ideal for boron, high strength alloys, auto extrication, and auto dismantling.

| Item # | Manufacturer | Length | Tooth Design | TPI | Pack Quantity | Price |
|--------------|--------------|--------|---------------|-----|---------------|-----------------|
| DS0608CFAR10 | Diablo Tools | 6 in | Carbide Teeth | 8 | Bulk 10-Pack | \$139.13 |
| DS0908CFAR10 | Diablo Tools | 9 in | Carbide Teeth | 8 | Bulk 10-Pack | \$139.13 |
