Diablo Wood Demon™ Carbide Teeth Jig Saw Blades for Fine Finish Wood

Thank you for shopping with us! Diablo's Wood Demon™ carbide teeth jig saw blades provide unmatched finish, speed and superior cutting life in fine finish wood cutting applications. High-performance carbide teeth deliver up to 50X longer cutting life than standard jig saw blades. An optimized blade design with Perma-SHIELD® coating provides friction-less precise cuts in straight, angled, and intricate curved cutting applications. The bi-directional tooth design features teeth facing in opposite directions at each end of the blade to deliver fine top and bottom finishes. A T-shank design fits all combo and most U-shank cordless and corded jig saws. High performance carbide for greater durability and up to 50X longer life. Aggressive carbide tooth geometry for fast and effortless cuts. Optimized blade design reduces heat and pitch build-up. Bi-directional tooth design for fine top and bottom finishes. Perma-SHIELD® coating resists heat build-up by protecting the blade against gumming and corrosion. T-shank design fits all combo and most U-shank jig saws. Maximum performance in cordless and corded jig saws. Ideal for hardwoods, softwoods, MDF, particle board, plywood, and melamine.
