FS Tool Industrial Quality Double Cut-Off Saw Blades

Thank you for shopping with us!

Industrial Line: FS Tool's offering of industrial saw blades represents the state of the art answers for today's woodworking cutting applications on North American and European machinery. Our product offering is the largest of its kind. Each saw blade has been developed to fulfill a specific cutting application. Each model has been developed with its own grades of materials (carbide and saw plate), its own cutting geometry (grind, hood angle, kerf), and its own operational enhancements (copper noise reducing plugs, cooling slots).

- Commitment to Development: meets the challenge of today's applications & materials
- Commitment to Quality: personal checking of saw blades at each step in our highly-automated manufacturing process
- Commitment to Value: competitive in a demanding and dynamic industrial marketplace

Design:

- Tooth configuration: 3 beveled one side & 1 beveled opposite side. Supplied in pairs 1 LH & 1 RH (Order separately)
- Cutting Material: TC
- Extra heavy plate provides added stability
- Expansion slots: Cu Plugged

Application:

- For fine cut-off and mitre cuts of soft and hardwoods, and trimming of plywood, wood veneered and plastic laminated panels single-sided, or double-sided using a pre-scoring unit
- On double cut-off machines and single- or double-end tenoners
