### FS Tool Industrial Quality Hollow Face Saw Blades: TCH

Thank you for shopping with us!

FS Tool's offering of industrial saw blades represents the state of the art answers for today's woodworking cutting applications on North American and European machinery. Our product offering is the largest of its kind. Each saw blade has been developed to fulfill a specific cutting application. Each model has been developed with its own grades of materials (carbide and saw plate), its own cutting geometry (grind, hood angle, kerf), and its own operational enhancements (copper noise reducing plugs, cooling slots). **Design:**

- Tooth configuration: TCH (face hollow-ground)
- Cutting Material: TC
- Expansion slots: Cu Plugged

#### **Application:**

- For exceptionally smooth cuts (on both sides) in melamine and other laminated panels without the need for pre-scoring
- On table saws, sliding table saws, and vertical panel sizing saws

Item #	Diameter	Bore	Kerf	Manufacturer	Plate	Teeth	Price
L41200	200 mm	5/8 in	2.9 mm	FS Tool	2.0 mm	48	<b>\$182.00</b>
