FS Tool Industrial Quality Chip-Free Melamine Trim Blades

Thank you for shopping with us!

FS Tool's offering of industrial saw blades represents the state of the art answers for today's woodworking cutting applications on North American and European machinery. Our product offering is the largest of its kind. Each saw blade has been developed to fulfill a specific cutting application. Each model has been developed with its own grades of materials (carbide and saw plate), its own cutting geometry (grind, hook angle, kerf), and its own operational enhancements (copper noise reducing plugs, cooling slots).

- Commitment to Development: meets the challenge of today's applications & materials
- Commitment to Quality: personal checking of saw blades at each step in our highly-automated manufacturing process
- Commitment to Value: competitive in a demanding and dynamic industrial marketplace

Design:

- Tooth configuration: High ATB (30°)
- Cutting Material: TC
- Expansion slots: Cu Plugged

Application:

- For chip-free sizing cuts (on both sides) in melamine and wood veneered panels, without the need for prescoring
- For fine crosscutting in solid woods
- On table saws, sliding table saws, vertical panel sizing saws, and cut-off saws

Item #	Manufacturer	Diameter	Bore	Kerf	Plate	Teeth	Price
LM6201	FS Tool	8 in	5/8 in	.118 in	0.087 in	60	\$159.64
