FS Tool Industrial Quality Thin Kerf Saw Blades

Thank you for shopping with us!

FS Tool's offering of industrial saw blades represents the state of the art answers for today's woodworking cutting applications on North American and European machinery. Our product offering is the largest of its kind. Each saw blade has been developed to fulfill a specific cutting application. Each model has been developed with its own grades of materials (carbide and saw plate), its own cutting geometry (grind, hood angle, kerf), and its own operational enhancements (copper noise reducing plugs, cooling slots).

- Commitment to Development: meets the challenge of today's applications & materials
- Commitment to Quality: personal checking of saw blades at each step in our highly-automated manufacturing process
- Commitment to Value: competitive in a demanding and dynamic industrial marketplace

Design:

- Tooth configuration: refer to chart (see items)
- Cutting Material: TC
- Very stable body minimizes run-out
- Expansion slots: Cu Plugged

Application:

- For fine cuts in veneered panels, expensive woods and sheets, thin plexiglass, masonite, and plastics
- On table saws, sliding table saws, and vertical panel sizing saws
