Tenryu Gold Medal Series Saw Blades

Thank you for shopping with us!
Rated as Top Tool by Wood Magazine.

This is the top of the line choice for the serious craftsman who wants one superior table saw blade for most all woodworking.

Saw plate run-out less than .002" for flat true run. Built-in dampening system reduces vibration, making cuts quieter and more precise. Performs smooth, easy crosscuts and rips. Even does a great job on double-sided laminates.

Carbide tip material is an extra hard C-4 and super-fine grain with corrosion inhibitors to give the keenest edge and longest sharp life.

Each Blade Features:
-Fully hardened, expertly tensioned tool steel body for true and accurate cuts; meticulously hand-hammer tensioned.
-A new grade of extra-hard carbide resists both abrasive and chemical wear better than standard grades for longer life.
-Resin bond-filled expansion slots to absorb any vibration and reduce cutting noise.
-Tenryu's fine grit honing ensures a mirror finish on carbide for the keenest possible edges and a super clean cut.
