Tenryu Power Tool Series Saw Blades for the Contractor

Thank you for shopping with us! Circular saw. Table Saw. Miter Saw. Battery Powered Saw. Primarily for Portable Saws and Table Saws. Tenryu's comprehensive line of blades for portable and stationary power tools. More variety, better quality, and greater value. Sizes range from 4" to 12" for most types of applications. The Tenryu PT Series goes on to include thin kerf wood cutting blades designed especially for smooth cuts on miter and slide-compound. Exceptional features and superior quality. -Fully hardened, expertly tensioned tool steel body absorbs impact, remains flat and true, and resists excess heat build up. -High-grade, C-3, fine-grain tungsten carbide tips resist erosion for extended blade life. -Aggressive rake angles for maximum cutting speed and efficiency. -Each tip is precision honed on all four exposed surfaces. This minimizes micro-chipping along the sharp edge of the tip and results in a sharper, longer lasting edge. -Thin kerf for less waste and lighter cutting performance (reduced feed pressure). -Inserted tooth design on some models greatly increases the body-to-tip braze area for greater support and tip strength. -Expansion slots and/or variable pitch gullets keep blade true under stressful work loads. -Can be resharpened for extended blade life.

Item #	Manufacturer	Application	Arbor	Kerf	Diameter	Grind	Rake	Teeth	RPM	Price
PT-10006-2	Tenryu	For exceptionally clean and smooth biscuit slots	22mm	0.157	4 in	ATAFR	25/ -15	6	11,000	**$43.20**
PT-10006-1	Tenryu	For very clean and accurate biscuit slots	22mm	0.157	4 in	FTG	20	6	11,000	**$36.00**
PT-11036	Tenryu	For fine trim woodworking with Makita trim saw	20mm	0.063	4 3/8 in	ATAF	15	36	13,800	**$28.08**
