Tenryu Steel-Pro® for Stainless Series

Thank you for shopping with us! Low RPM Dry Cut Saws. Now it is possible to cut stainless steel with greater efficiency on your low RPM metal-cutting saw. The Steel-Pro® for Stainless series is the result of nearly two years of extensive product testing. Never before has cutting stainless steel been so easy and cost effective. The Tenryu Steel-Pro® for Stainless blade allows you to cut a wide variety of stainless steel materials with: ***Greatly Improved Cutting Speed *Less Burr on Edges (resulting in tremendous time savings) *No Scorching of the Stainless *Reduced Sparking *Longer Life *Fewer Blade Changes** Each Blade Features: -Individually hand-hammer-tensioned steel plates for true run -Unique tooth design and geometry for smoother and easier cuts -Resin bond-filled laser expansion slots for reduced vibration -Grade of carbide for longer cutting life in stainless steel -Inserted teeth with chip-limiting steel support for added durability and safety Note: Please note all safety instructions before use and adhere to instructions for maximum RPM speeds. **Refer to images for usage requirements.**
