Whiteside Plus Combination Blades

Thank you for shopping with us! The standard multi-purpose blade for a wide range of materials, including softwood, hardwood, plywood, and particle board. The large gullet at the raker tooth, along with the 15° hook angle, provides easy feeding for ripping style cuts, while the close grouping of the other four ATB teeth produces a lighter chip load for crosscutting and finish work. These blades offer a great combination of versatility and efficiency.

| Item # | Bore | Diameter | Grind | Hook Angle | Kerf | Teeth | Manufacturer | Price |
|----------|--------|----------|-------|------------|----------|-------|-------------------|-----------------|
| 90800101 | 5/8 in | 8 in | COMB | 15 Deg | 0.126 in | 40 | Whiteside Machine | \$84.57 |
| 90800401 | 5/8 in | 10 in | COMB | 15 Deg | 0.134 in | 50 | Whiteside Machine | \$84.95 |
| 90800505 | 1 in | 12 in | COMB | 15 Deg | 0.150 in | 60 | Whiteside Machine | \$124.76 |
| 90800605 | 1 in | 14 in | COMB | 15 Deg | 0.150 in | 70 | Whiteside Machine | \$183.47 |
