Whiteside Plus Ripping Blades: Standard & Glue Line

Thank you for shopping with us! These ripping blades are designed for aggressive cutting with the grain in solid woods. They are ideal for power- or hand-feeding and are also compatible with single and gang rip saws. The Standard Rip Saw has a traditional Flat Top Grind and is the best choice when high feed rates are the primary concern. The TCG grind and the higher tooth count on the Glue Line Blades produces extremely smooth, true edges for gluing and finish work without planing.
