Amana Tool Insert Carbide Straight (single, 2-flute)

Thank you for shopping with us! These router bits yield cuts that are cleaner than typical insert bits, offering high speed cuts with super clean finish. They also are channel set, double edge knives. Each blade has a double-sided cutting edge for economy. The insert carbide is much harder than brazed carbide. There is a minimum amount of downtime for blade changes. Replacement 1.5mm special hex key #5011 Replacement spring washer #RC-3100 use #67104; #RC-3110 and #RC-3200 use #67105

Item #	Diameter	Cut Height, Length, or Width	Flute	Overall Length	Shank	Note	Manufacturer	Price
