### Vortex Tool MDF Inside Door Profiles - Inside Roughing Profile

Thank you for shopping with us!

These "multiple" pass cutter sets can be used in combination to rough out and corner clean to provide the appearance of a square inside corner. Combine with a raised panel cutter to complete the look of a five-piece assembled door. Bead profile (7964) will accept both a small bead (1/4" radius) or a large bead (3/8" radius) insert so one tool can do both profiles.

Item #	Profile	Style	Includes	Note	Manufacturer	Price
