Vortex Tool MDF Outside Door Edges - Insert Body Part 7962

Thank you for shopping with us!

Designed so that one body accepts all outside door edge profiles! Our outside edge router bit separates and profiles at the same time. We've utilized our unique capture groove system to maintain a small cutting diameter while providing two cutting edges. This tool has a 3/4" shank diameter with a 1/2" small diameter and is designed to cut through .010" on a 3/4" thick material.

Item #	Includes	Style	Note	Manufacturer	Price
