Item #150PSD22SS, Vega Phillips Square-Drive ACR® Power Bits - Stainless Steel - 1/4"

\$23.50

Thank you for shopping with us! Made from S2 modified shock resistant steel for professional performance and durability. Proprietary precision CNC machined tips for excellent fit in fastener recess. ACR ribs reduce stripping, increase torque, and enhance off-angle drivability. Stainless Steel: Ideal for environments where corrosion and rust is severe. The high performance stainless steel used by Vega provides a superior mix of strength and corrosion resistance. It is recommended to use stainless steel bits with stainless steel fasteners to prevent contamination of stainless screw heads. • Multiple driver tip configurations available • Helps control contamination and corrosion • Excellent for use with stainless steel fasteners

ACR® stands for Anti-Camout Recess. The ribs on the bit tip engage the fastener recess to reduce stripping, provide increased torque, enhance off-angle drivability, and offer a stick fit that makes screw driving easier.

SPECIFICATIONS	
Length	2 in
Tip/Point	2--2
Manufacturer	Vega Industries
Unit Price	\$4.70
Pack Quantity	Bulk Pack of 5
