Item #165HB416, Vega Hanger Bolt Drivers - 1/4" - Pack of 5
$23.60
Thank you for shopping with us!

Made from S2 modified shock resistant steel for professional performance and durability. Precision controlled heat treatment for extreme durability and wear protection. Standard 1/4" shank fits most power tools and chuck adapters.

Unique from Vega!

Hanger Bolt Drivers

Vega hanger bolt drivers enable the easy installation of hanger bolts into wood objects, using the drivers in an impact driver or drill driver (vs. other hand driving methods):

1. Drill a proper size pilot hole in the wood object in relation to the hanger bolt's lag thread screw diameter

2. Match the machine thread size on the hanger bolt to one of 6 available thread sizes on Vega hanger bolt drivers

3. Carefully thread the hanger bolt driver onto the machine thread of the hanger bolt at the blunt end of the bolt

4. Drive the hanger bolt into the pilot hole in the wood object with the hanger bolt driver fixed into an impact driver or drill driver, until only the machine thread section of the bolt is visible

5. Reverse the power tool to remove the hanger bolt driver from machine thread of the bolt

SPECIFICATIONS	
Manufacturer	Vega Industries
Length	2 9/16 in
Opening	1/4 in - 20
Unit Price	$4.72
Pack Quantity	Sold in Pack of 5
