Item #185-505, Amana Timberline Carbide-Tipped Aluminum & Non-Ferrous 7-1/4 Inch Dia x 50T TCG, -5 Deg, 5/8 Bore with Diamond Knockout **\$64.33**

Thank you for shopping with us! This blade is designed for cutting thin non-ferrous products and plastics. It features a 3° or 5° negative hook angle. When cutting non-ferrous metals, a coolant or blade wax should be used and proper clamping devices employed. For optimal results and to extend tool life, please use mist lubricant system or air cooling. Please inspect cut and adjust accordingly. Can also be used to cut ACM (Aluminum Composite Material) such as (Alucobond®, Dibond®, etc).
Product Information: • TC Grind • Thin Kerf • Carbide-Tipped • Professional Quality • Boxed Packaged 5/8 Bore with Diamond Knockout
Warning: Never attempt to cut ferrous metals (steel, iron, etc.) with these saw blades.

Designed to cut: Aluminum, Non-Ferrous Metals & Plastics

Can also be used to cut ACM (Aluminum Composite Material) such as (Alucobond®, Dibond®, etc)
